<sup>1</sup> “Applicant” refers to the Métis citizen who applies for the ERP program. The Applicant is responsible for all communications with MN-S.

<sup>2</sup> “Primary Residence” is a residence that is ordinarily inhabited by the Applicant(s). “Primary Residence” also meets the definition of “Principal Residence” as set out in the Income Tax Act of Canada and is claimed as such on an Applicant’s tax return.

<sup>3</sup> “Gross Annual Household Income” includes the sum of all annual earnings for all members 18 years or older who are residing in the home as economic family members or unattached individuals not paying rent. An economic family is defined as a group of two or more persons who live in the same dwelling and are related to each other by blood, marriage, common law, or adoption. An unattached individual is a person living either alone or with others to whom they are unrelated. Unattached individuals who are paying rent may be omitted in calculating the Gross Annual Household Income. However, the rental income from the unattached individual(s) must be included in the Applicant’s income calculation.

<sup>4</sup> “Total Household Property Equity” includes the sum of property equity for all members 18 years or older who are residing in the home as economic family members or unattached individuals not paying rent (see Gross Annual Household Income for definition). Property equity is the difference between the value of the property (land & home) and how much is owed. It is calculated by subtracting the outstanding mortgage from the property’s assessed value as shown on the most recent property tax assessment.
